

Job Description: Data Engineer

DataWave Technologies

Posted: September 10, 2025

Job Description

Design and build data pipelines. Ensure efficient data processing and integration across systems.

Key Responsibilities

- Develop and maintain ETL pipelines.
- Optimize data storage and retrieval (e.g., Snowflake, Redshift).
- Integrate with cloud platforms (AWS, GCP).
- Ensure data quality and security.

Required Skills & Experience

- Degree in Computer Science or related field.
- Experience with Apache Spark or Airflow.
- Knowledge of Python or Scala.
- Familiarity with cloud-based data platforms.
