Job Description: Cloud Architect

Nexlify Innovations

Posted: September 10, 2025

Job Description

Design and implement scalable cloud infrastructure. Oversee cloud adoption strategies and optimize cloud environments for performance and cost-efficiency.

Key Responsibilities

• Architect cloud solutions using AWS, Azure, or GCP.

• Optimize infrastructure for scalability and cost-efficiency.

• Collaborate with DevOps teams to integrate CI/CD pipelines.

• Ensure compliance with cloud security standards.

Required Skills & Experience

• Degree in Computer Science, IT, or related field.

• Expertise in cloud platforms (AWS, Azure, GCP).

• Experience with Terraform or CloudFormation.

• Knowledge of scripting languages (e.g., Python, Bash).
